

WASHINGTON REALTORS®

Congratulations on receiving the endorsement of Washington REALTORS® for your campaign for the State Legislature.

Currently, Washington State ranks almost last in the country for the number of housing units available per household. This dubious distinction has led to challenges in housing availability and affordability experienced throughout the state.

We know that housing is a critical issue for your constituents and look forward to collaborating with you in the legislature to increase housing availability, and homeownership opportunities, for every resident in Washington.

Please take a moment and look at the enclosed candidate expectations - this outlines our expectations of the candidates we endorse.

Do not hesitate to reach out if you have questions, or if you would like to discuss housing policy – we're always happy to engage.

Best of luck on the Campaign Trail!

Sincerely,

Mary Hult-Drury, MPA
Government Affairs Director
